MAKRON

A Promise to Complete.

Installation and Lifecycle Services

PREVENTIVE MAINTENANCE

INSTALLATION AND LIFECYCLE SERVICES

A wide range of installation and lifecycle services for your industry processes and machinery.

At Makron, we want to serve you through the lifetime of your production or industrial processes. Our lifecycle services cover both industrial automation and mechanics. We aim to ensure that your production runs smoothly with the minimum possible downtime. We offer you industrial lifecycle services from installation and commissioning to maintenance and spare part deliveries, either as a whole or as individual services. Modernization prolongs the lifecycle of the production line. We aim to maintain your productivity, safety, environmental friendliness and efficient operation.

PREVENTIVE MAINTENANCE

We want to help you prevent complications in your industrial processes. With preventive maintenance we can minimize your need for corrective maintenance in your automation and mechanical systems.

What Makron does

With our preventive maintenance services we keep both your automation and your mechanical systems running well.
