CHAIN CONVEYORS

CONVEYOR TECHNOLOGIES

Conveyor solutions for your industrial needs.

Innovative conveyor solutions streamline and enhance industrial processes. Makron combines strong automation and production expertise with decades of experience in conveyor technologies. The conveyor systems have been developed to meet the specific industrial needs, whether for intralogistics or production lines. Our products are engineered to streamline your processes and boost operational efficiency. Our conveyors are not only efficient but also represent the highest standards in reliability and safety. We take pride in delivering solutions that meet highest industry requirements, ensuring you have the peace of mind that comes with top-tier, consistent performance.

CHAIN CONVEYORS

Chain conveyors are a robust solution for the efficient transportation of bulk and load goods in different industries such as timber processing and the handling of lengthy items. Makron's chain conveyors are designed to withstand the rigors of heavy-duty applications.

What Makron does

Our conveyors are built to last, ensuring long-term performance and minimal maintenance requirements. The robust construction of our conveyors withstands the demands of demanding industrial environments.
