Conveyor Technologies

SCISSOR LIFTS

CONVEYOR TECHNOLOGIES

Conveyor solutions for your industrial needs.

Innovative conveyor solutions streamline and enhance industrial processes. Makron combines strong automation and production expertise with decades of experience in conveyor technologies. The conveyor systems have been developed to meet the specific industrial needs, whether for intralogistics or production lines. Our products are engineered to streamline your processes and boost operational efficiency. Our conveyors are not only efficient but also represent the highest standards in reliability and safety. We take pride in delivering solutions that meet highest industry requirements, ensuring you have the peace of mind that comes with top-tier, consistent performance.

SCISSOR LIFTS

Makron's scissor lifts are designed specifically for demanding industrial use. Scissor lifts offer versatile functions and can be seamlessly integrated into conveyor systems.

What Makron does

Scissor lifts can be customized to the transported product. They are shielded against dust and splashing water, ensuring functionality and reliability across various industrial environments, such as warehouses, logistics centers, and production facilities.
