

MAKRON

A Promise to Complete.

Industrial Automation

COMMISSIONING

INDUSTRIAL AUTOMATION

Industrial automation optimizes the functionality of machines and systems.

With efficient automation you can control, operate and monitor your machines seamlessly, and you can improve your cost and production efficiency, too. Makron industrial automation covers everything from the planning and programming of control systems, to electrical installations, commissioning, and installation supervision, as well as lifecycle services. Our electrical control cabinet manufacturing covers a wide range of products and industrial applications. Our automation enables heavy production work to be performed by robots and machines, for a safer and more efficient working environment. Makron automation also improves accountability, production reporting, and preventive maintenance. We can support you wherever you are located with our remote access systems. We offer you our industrial automation expertise as individual services or together with our machine manufacturing service. We have over 30 industrial automation professionals ready to help.

COMMISSIONING

Makron performs commissioning projects for industrial logic-based control systems around the world. Project commissioning is the process of assuring that all systems and components are designed, installed and tested according to their operational requirements. In practice, our professionals check, inspect, and test every operational component of the project, from individual functions all the way up to whole systems. Our know-how covers both industrial automation and mechanics.

What Makron does

We provide commissioning services for machine builders, project suppliers, industrial plants and marine industry suppliers. We make sure your production facility, machines, components and automation work completely without stoppages and failures. We are ready to provide commissioning for every project you need regardless of the location of your factory. Our skilled commissioning experts will train and guide your staff in the safe use of your production lines and systems.

Products & expertise

- Project commissioning
- Machinery commissioning
- Staff training for machinery and production lines
- Production start-up services
