

Industrial Automation

ELECTRICAL CONTROL CABINET MANUFACTURING

INDUSTRIAL AUTOMATION

Industrial automation optimizes the functionality of machines and systems.

With high-quality automation solutions you can control, operate and monitor your machines and processes seamlessly. Modern industrial automation solutions improve your production or intralogistics efficiency and enable a safe working environment. Makron industrial automation covers everything from the planning and programming of control systems, to electrical control cabinet manufacturing, electrical installations, commissioning, and lifecycle services. We can offer our expertise in modernization or digitalization projects and provide you with robotics and machine vision solutions. We integrate systems to support your business. You can entrust all development and maintenance of your automation systems to us as your long-term automation partner.

ELECTRICAL CONTROL CABINET MANUFACTURING

Makron manufactures electrical control cabinets to complete your technology and processes. Our flexible production provides customer-specific deliveries. We efficiently manufacture cabinets according to standards and your specifications and also test and install them with short lead times. We are UL 508A and UL-CSA C22.2 certified manufacturer. We have extensive experience in manufacturing cabinets for demanding conditions, such as marine and mining industries.

What Makron does

Our electrical control cabinet manufacturing covers a wide range of products and industrial applications. We have the know-how to deliver cabinets based on your own electrical planning, or designed by our skilled electrical engineers. Makron has UL 508A and UL-CSA C22.2 certifications. Our typical customers are machine builders, project suppliers, industrial plants, and marine industry suppliers. Makron's services include installing and testing your software.
