# **ELECTRICAL CONTROL CABINET MANUFACTURING**

# INDUSTRIAL AUTOMATION

**Industrial automation optimizes the functionality of machines and systems.**

With efficient automation you can control, operate and monitor your machines seamlessly, and you can improve your cost and production efficiency, too. Makron industrial automation covers everything from the planning and programming of control systems, to electrical installations, commissioning, and installation supervision, as well as lifecycle services. Our electrical control cabinet manufacturing covers a wide range of products and industrial applications. Our automation enables heavy production work to be performed by robots and machines, for a safer and more efficient working environment. Makron automation also improves accountability, production reporting, and preventive maintenance. We can support you wherever you are located with our remote access systems. We offer you our industrial automation expertise as individual services or together with our machine manufacturing service. We have over 30 industrial automation professionals ready to help.

---

## ELECTRICAL CONTROL CABINET MANUFACTURING

Makron manufactures electrical control cabinets to complete your technology and processes. Our flexible production can provide customer specific deliveries. We efficiently manufacture cabinets according to your specifications, and also install them with short lead-times.

### What Makron does

Our electrical control cabinet manufacturing covers a wide range of products and industrial applications. We have the know-how to deliver cabinets based on your own electrical planning. We complete your production lines or processes with world-class control systems. Makron's services include installing and testing your software.

### Products & expertise
