

Installation and Lifecycle Services

CORRECTIVE MAINTENANCE

INSTALLATION AND LIFECYCLE SERVICES

A wide range of installation and lifecycle services for your industry processes and machinery.

At Makron, we want to serve you through the lifetime of your production or industrial processes. Our lifecycle services cover both industrial automation and mechanics. We aim to ensure that your production runs smoothly with the minimum possible downtime. We offer you industrial lifecycle services from installation and commissioning to maintenance and spare part deliveries, either as a whole or as individual services. Modernization prolongs the lifecycle of the production line. We aim to maintain your productivity, safety, environmental friendliness and efficient operation.

CORRECTIVE MAINTENANCE

When you are in trouble, we are there for you. Corrective maintenance can be software or hardware related and we are able to support you both remotely and on site. Our specialists have the tools needed to help and they're ready to serve you promptly.

What Makron does

Our corrective maintenance service covers everything from a detailed situation analysis to the actions needed to resolve issue, including all the necessary spare parts and components.
