

MAKRON

Installation and Lifecycle Services

SPARE PARTS

INSTALLATION AND LIFECYCLE SERVICES

A wide range of installation and lifecycle services for your industry processes and machinery.

At Makron, we want to serve you through the lifetime of your production or industrial processes. Our lifecycle services cover both industrial automation and mechanics. We aim to ensure that your production runs smoothly with the minimum possible downtime. We offer you industrial lifecycle services from installation and commissioning to maintenance and spare part deliveries, either as a whole or as individual services. Modernization prolongs the lifecycle of the production line. We aim to maintain your productivity, safety, environmental friendliness and efficient operation.

SPARE PARTS

We manufacture and supply mechanical and electrical spare parts to meet your needs and demands.

What Makron does

We manufacture mechanical spare parts and source electrical components via our system partners Siemens and Omron, and through other reliable suppliers.

Products & expertise

- Mechanical spare parts
- Electrical spare parts and components
- Spare part purchasing
