

Installation and Lifecycle Services  
**SPARE PARTS**

# INSTALLATION AND LIFECYCLE SERVICES

A wide range of lifecycle services for your industry processes and machinery.

At Makron, we aim to provide the best possible customer service. Let us introduce you to our Lifecycle Services. These include all the services you need, from auditing and production line modernization to maintenance and spare part deliveries. We can also arrange training for your personnel to teach them about new interfaces and machine functions.

---

## SPARE PARTS

We manufacture and supply mechanical and electrical spare parts to meet your needs and demands. We can store your critical spare parts for you or order them on request.

### What Makron does

We manufacture mechanical spare parts and source electrical components via our system partners Siemens and Omron, and through other reliable suppliers. We can also store critical spare parts for you, if needed.

### Products & expertise

- Mechanical spare parts
- Electrical spare parts and components
- Spare part warehousing
- Spare part purchasing
