# STEEL CONSTRUCTION AND POWER TRANSMISSION

# MARINE INDUSTRY

**Subcontracting automation, engineering, and machine manufacturing for the marine industry.**

Makron supports your technology needs as an engineering, automation and manufacturing subcontractor. Makron is an expert in heavy fabrication and can manufacture steel structures for the marine industry. We also offer automation expertise to marine technology companies working with waste and wastewater treatment systems. For automation systems, Makron covers your needs completely from planning to programming, to electric control cabinet manufacturing and commissioning.

---

# STEEL CONSTRUCTION AND POWER TRANSMISSION

Different marine vessels require different kinds of steel construction, and Makron is an expert in producing large steel structures. Our production is devoted to high-quality welding and machining.

## What Makron does

Our steel working machinery is suitable for the production of power transmission components and other steel parts. We can also offer you mechanical engineering services.

## Products & expertise

- Steel constructions
- Power transmissions
- Mechanical engineering
- Pressure vessel and heat exchanger engineering
