WELDING

PRODUCTION

We are experts in industrial project business based machine manufacturing.

Makron is your one-stop solution provider in machine manufacturing. We handle different projects from your designs and drawings to a complete working product. Working together with Makron means you have high-quality expertise and professionals providing you with the best possible service. We value the quality of our work and therefore we thoroughly document production. We are able to obtain all the needed parts, components, and materials for you. We are happy to take complete responsibility for the supply chain, to stay on schedule and get the necessary components on time. Our work plans ensure that every step of the process is planned carefully. During the production process, we will also report on our progress, step-by-step, to keep you up-to-date. And we constantly develop our products and production processes. We appreciate hands-on partnership where we learn from each other to make projects more efficient and products better.

WELDING

We are well-known for our welding quality! Makron qualified welders are specialized in various demanding welding processes. Our welders have the best equipment and years of experience in various completed welding projects.

What Makron does

Our highly certified welders can execute welds depending on your needs. Welding is done according to welding procedure specifications (WPS) and the latest equipment. Our professional welders have mastered all the essentials of welding – MIG-, submerged-, TIG- and MAG-welding.

Machinery & Services

- MIG welding
- TIG welding
- Submerged arc welding (SAW)
