ELECTRICAL CONTROL CABINET MANUFACTURING

Automation and electrical control cabinets for industry, according to your specifications.

Makron manufactures electrical control cabinets to complete your technology and processes. Our flexible production provides customer-specific deliveries. We efficiently manufacture cabinets according to standards and your specifications and also test and install them with short lead times. We are UL 508A and UL-CSA C22.2 certified manufacturer. We have extensive experience in manufacturing cabinets for demanding conditions, such as marine and mining industries.

PRODUCTS AND SERVICES

ELECTRICAL AND AUTOMATION CABINETS

We manufacture control cabinets and boxes for your machines and production lines in accordance with your drawings or you can let our skilled electrical engineers take over the design work for you. We deliver you control cabinets that have been inspected and tested and meet all requirements set by standards. In our full-scope deliveries, the manufacturing and installation of the control cabinets is an integral part of the project. An ISO 9001-certified quality management system is the foundation of our operations. Makron is a UL 508A- and UL-CSA C22.2-certified manufacturer. This means that we can manufacture control cabinets that are approved for use on the North American market.

WHAT MAKRON DOES

We supply the control cabinets customized to customer needs. Our typical customers are machine builders, project suppliers, industrial plants and marine industry suppliers. We also manufacture the control cabinets for our modernization and intra-logistics projects. Makron has UL 508A and UL-CSA C22.2 certifications. Makron's services include installing and testing your software.
